The Crops.

The Mauston Star (Juneau County) says it hears of but little damage to the creps in that vicinity.

The Badger State (Columbia County) of Saturday says:—"The weather has been the very worst for our farmers during the week—hot sunshine and heavy showers. But nearly all whom we have seen, express the opinion that the Wheat crop will be nearly an average in quantity if not in quality."

The Crops.—From every quarter of the State our local exchanges report the same story—great falling off in the wheat crop as compared with lass year. A considerably larger breadth was fown than in 1857, but a combination of un favorable circumstances, bad weather, buge, slies, worms, rust, &c., have greatly injured it.
A gentleman residing near Sun Prairie, in cne of the most productive portions of our county, informs us that at least one-fourth of the wheat crop is that quarter will not be harvested at all, not being worth the thouble.

Shocking Double Murder. Shocking Bouble Murder.

Gessen, Orange Co. N. Y. Aug. 14.
Last night, at about half-past nine o'clock, our village was alarmed by the intelligence that a most diabolical double murder had been committed at the house of Chas. Resee, in Hamptonburg, about two miles from here, on the Newburg road. Some twanty of our citizens immediately ropaited to the scene, where they learned the following particulars: Mr. Resee and his family were absent from bome, leaving the house in charge of three servants, named Wm. Saunders, Peter Shoerth and Margaret V. Pealy. It seems that Peter and Margaret were to be married next week, and they had been passing its evening together in the room of the latter. At about 8 o'clock, just as he was leaving Margaret's room, Peter was met at the door by William, who deliberately, and without a word passing between cither, shot him directly through the right nipple. Peter opened the door through which he had passed, and fell dead across the threshold.

across the threshhold. The murderer then rushed into the room over the dead body of his first victim, and shot Mar-garet through the left breast, the ball passing out behind, just below the shoulder blade. He then turned and jumped out of the open window then turned and jumped out of the open window to the ground, some 20 fect or more, and man aged to crawl through the garden and orchard, nearly a quarter of a mile, to the house of Mr. Case, who immediately gave the aiarm. The murderer has not yet been arrested, nor even seen since, but the whole country is aroused and searching for him. The woman is still alive, but cannot surviva more than two hours longer.

Fire in the Illinois State Prison.

ALTON, August 14. ALTON, August 14.
Yesterday evening about eight o'clock, a fire broke out in one of the workshops on the yard of the State Prison, in this city. Two of the workshops, the dining hall, chapel, hospital, kitchen, and two or three other small buildings attenen, and two or three other small buildings were consumed. Also a large amount in value in copper and other materials, and finished work. One large carriage and wagon shop, with stable and out-buildings were saved. The main building, containing the residence of the warden and cells of prisoners, being fire-paoof, were uninjured; but the leat was so intense that the convicts had to be taken from their cells to save victs had to be taken from their cells to save them from suffering. Many of them lont their aid actually and energetically, to arrest the pro grees of the flames and save property, while others showed a spirit of insubordination and at tempted to escape, in which, however, none

empted to escape, in mana, them succeeded. One fireman was severely injured and two or three slightly.

The value of the property destroyed will fall but little short of \$30,000, all of which is cover-

since.
The flying sparks and cinders communicated fre to Mesars. J. A. Mitchell & Co.'s mill, im-mediately above the penitentiary landing. I was, however, extinguished. The fire is no yet out; but it is not apprehended that further damage will be done. The origin of the fire is JOURNALS, LEDGERS, ETO., ETO., int known, but is supposed to have been purely accidental,

The Administration Floored in Minne-The Pro-Slavery BUCHANAN Administration has just sustained a severe defeat in Minnesota. The "Administration faction" there, as the Newsterns them, have been busily concerting a plan, all winter, to throw overboard Senator Shieder who had sufficient self-respect and independence in his stead some pliant tool of the Siavery propagandists. The project was so far successful that a moionit, the winter of the same of the millions and in this current year they will duced to pass a resolution, providing for the election of a United States Senator on Wedness in the flower of the State Senator of the Sta The "Administration faction" there, as the News

Resolved, That the course pursued by members of the present Legislature to enforce the election of a Senator of the United States, at the present essaion, to fill the seat occupied by General Shields, for the purpose of advancing corrupt designs, and to elect a Lecompton Senator, he is demonstration against Stephen A. Douglis, and to conclusion the favors of the National Administration, is sike a violation of the sentiments of the people of Minnerota, and observations to the honor, interest and dignity of the State.

The result is claimed by the free presses of Minnesota, as a severe rebuke to the "Administration faction" and a glorious triumph for Freecom and Right.

From the Washingtin Union, Tuesday.

How the Administration takes the Leacompton defeat. The results of the election in Kansas leave no doubt of the refusal of the people to be admitted lote the Union on the terms proposed in the Conference bill of the last session.

This result we do not regret. There is no longer any reston for treating Kansas as exceptional to the general rule prevailing in reference to the admission of new States into the Union. Justice to the people of other Territories requires that they shall have a sufficient population, before admission, to intille them at least to one recreates their incomerses. About one hundred The results of the election in Kansas leave no

000 inhabitants before she can come in. When Kansas had but 30,000 inhabitants. Democracy was not only willing, but a naious to admit be provided she came in with a Pro-Slavery Constitution; but now that Kansas spurps the English bribe and demands to be admitted as a Free biate, Democracy reolly tells her to wait till she hes 100,000 inhabitants

THE END OF DOUGLAS.—The Union reads Judge Douglas fair and square out of the Democratic party. Without him, according to the Union, it is a unit. He could have been forgiven some six weeks ago, but now he must be consigned to a political grave. Will the Union tell us what it proposes to do with Wise and the other Virginian recusants?—N. Y. So far as the West is concerned, it will turn out, we think, that the Democratic Party, with-

Another Hend Off.

The U. S. Deputy Marshal at Mineral Foint, Mr. T. J. Ous, who was originally appointed by Marshal Ableman and re-appointed by Marshal TROMAS, has just been removed by the latter for enndry political crimes and misdemeunors. Mr. Orrs, in a card to the Mineral Point Tricums, tells the whole story, concluding thus:

tells the whole story, concluding thus:

And now, to sum the whole thing up, my head was cut off for no other reason than that I could not, would not, support a clique which had declared that they had and would control the Democratic party and city; and had been, and were likely to be, a disgrace and a burden to our city. There are other scartling facts contected with my removal, which I forbear to put upon paper at present, and shall not unless it upon paper at present, and shall not unless it terames necessary in self defence. I have but tecomes necessary to the facts in the case, so far as I have gone, which I think is sufficient to convince any must that my removal has been effected by helt a dozen as rotten hearted politicians as ever packed a convention, to the ruin of the party, and the county or city THOMAS J. OILS.

The Tribune says that Mr. Orrs was a faithful pany being and efficient officer, and that the people are greatly dissatistied with Marshal THOMAS for removing him.

ANOTHER LINE IN THE TELEGRAPH CHAIR-The New York Journal of Commerce lestes that the Company which was formed last year for the purpose of establishing telegraphic communication between the Island of Cuba and the American continent, have completed their preliminary arrangements, and are resolved to commence the work immediately. This will be valuable addition to our comprehensive system of telegraphs, and one that ought to be supplied, now that the submarine Telegraph has been successfully laid. The Journal of Commerce is informed that among the managers of the Company are some wealthy and enterprising citizens of Havana and New York.

St. Choix and Lake Superion R. R .- The Hudson North Star informs us that there is every prospect of work being speedily commenced on this road; the contractor having already made his arrangements for twenty miles of Iron, purchased provisions for his men and intending to break ground by the 1st of September.

The Hundred Million Administration Every Administration is signalized by some La Crosse & Milwaukee Raihoad Company to pany 120 sections of land for every 20 miles of construct certain lines of road. Section 2 is as renowned by the Kansas frauds. But the Buchanau Administration, even with its Lecompton of Landous Saladous Constructed on the maintains that the Company has completed no maintains that the Company has completed no onism, can hardly equal that, in that speciality t is obliged to seek other marks of distinction If it has no other, it may be known as the Hundred Million Administration. Pierce was t dred Million Administration. Pierce was a pretty good hand at raising the tide of expenditures. But Buchanau is a better. Fillmore had an average of about forty-eight millions; Pierce got it up to seventy, and Buck has got it up to one hundred. We doubted this, and were waiting patiently for the Clerk's annual statement, in which he is obliged to state all the appropriations precisely. We have copied the substance of his statement, from which the following facts appropria following facts appear: The specific appropria-tions smoont to \$82,000,000. But, in addition to this, there are a large number of indefinite appropriations which, in previous years, amount-ed to several millions per annum. In addition o this, are constantly increasing expenditures which must be met hereafter, for we see not the which must be mer hereafter, for we see not need to less sign of economy or frugulity anywhere.—
One hundred millione, and probably more, (for the aggregate of all appropriations outceds that sum) will be required for the second year of Buchanan's Administration. To form a comrehensive idea of the progress made by the Democratic Administrations from 1852 to 1853,

we annex the numual expenditures of the last eight years:

We are in favor of liberal grants for all commercial, scientific or humans grants for all commercial, scientific or humans purposes. But who can justify such wholeale

> Constant inferess of the increase is in the regular appropriations, made on the estimates of the Administration. For example—the appropriations for the years 1858—9, for the Army is about twenty-five millions, including fortifications.—The Navy expenditures are nearly fifteen. The incretse of the Army expenditures for some years has been as follows:

Year ending June 30, 1855. \$14,773.846

1 1856 16,945,166

1 1 1 1857 19,961,166

1 1 1 1852-9 25,169,010 Thus, we see the appropriations for the Army rapidly growing, so that in four years they are almost doubled. Why is this? We are not at war with any nation. Will this great increase of military expenses be attributed to the Uth Expedition? This never fairly got under weigh till last Fall. A large part of this expenditure was in maintaining an army in Kauses; one of the happy fruits of Squatter Sovereiguty, which, when once pretended to be put in operation, hed to be supported by military power. purposes. But who can justify such wholsale squandering as the following:

Congress has appropriated more than three millions of dollars for a single custom house at New Orleans, and we believe some two millions for another at Charleston—where it is about as much needed as the Mint at Dahlonega. These it is true, have been spread over several years and have not greatly increased the appropriations for one. They have, however, with other building appropriations, served to make large contracts in the large cuttes, for the aid of the Administration. But, it is not these which make up in any great degrer, the regular and constant increase of Government expenses.—

The greater part of the increase is in the regular.

Section 9 is as follows:

This is cool advice from the Administration organ. In alarge number it has not received a vote, and in others only two or three votes, being the postmasters or some other federal officers.

From this it will be seen that the Free State men of Kansas have nobly vindicated them-selves. The oath taken on the 2d of December last, with such unsulmity and enthusiasm, that the Lacompton constitution should never to Constitution of the State of Kanses, has Constitution of the State of Annuas, has been faithfully kept. And thus ingloriously ends the pro-slavery Kaussa battle. Diplomatist Arrested for Debt.

It is an old truth that grandeur has its incon vonlences and its dangers; but new illustrations of it appear in the experience of every great individual. This the them. John Nugent, who has just gone to represent the United States Gorenjust gone to represent the United States Government and protect the interests of American minorain the gold diggings of New Caledonia, has just had reason to realize, as the Yankses say. It appears that Mr. Nugent—who, by the way, is an Irish gunteman lately connected with the N. Y. Herald—was indebted to a tallor of Newark for clothes to the amount of one hundred and slaty-five dollars. This was a debt of rather ancient and venerable character, and had not interfered with the happines of the debtor in the least. Mr. Nugent had pursued his ambitious career is spite of it; he had crossed eccans and climbed the giddy steeps of the mountains; tious career in spite of it; he had crossed eceans and climbed the giddy steeps of the mountains he had seen the sun rise in the Atlantic and bathe his acting glories in the Pacific; he had gained the friendship of Mr. Buchanan and o Gen. Cass; and all the while this tailor's bill like a sleeping lion, had not disturbed his telleity by so much as a growl. We care say he fondly lored it would thus along forwer. Veria deleoped it would thus sleep forever. Vain dolu

sive hope!

No sooner had John's name been gazetted
as extraordinary envoy to New Caledonia than
the dormant creditor became excited to the consciousnese that now was the time to ble pay. Accordingly, we are sorry to believe, he set a watch upon the new favorite of fortune. His movements were observed from his hotel in Washington to the national moneton. where he enjoyed the parting hespitalities of our venerable President; to the office of the our venerable President; to the office of the equally venerable Secretary of State, where he received these famous instructions concerning which so much has been reported by telegraph; to the railroad station, where the distinguished diplomatist bought his ticket, or, more probably, got his free pass for New York; to the Heraid, whore he went to return thanks for his appointment; and finally to the steamer which was to transport him and his credentials to the distant West.

distant West.

After all this prelimitary eepionage, no one can be astonished, however all geneitive hearts must be grieved, at the fact that the next stage in the drama was the arrest of the Commissioner by a sheriff's officer. Very naturally this harsh and sudden act, coming as it did upon the civilian and supplementation of the with official interand sudden act, coming as it did upon the civilities and complacencies of the seft official intercourse that had preceded it, tock the Commissioner by surprise. In the famous battle of the Baltic, it is recorded that the bravest held his breath for a time; and so, for a time, the friend of Messrs. Messrs. Buchanan and Bennett lost his memory. To such an extent did this loss of memery go that John actually denied that he had ever ordered or worn the clothes or owed the tailor's bill in question; and in this denial he persisted antil the sheriff's officer with great humanity, gently called back his wondering and oblivious mind to its usual channels by menioning several circumstances, which gradually reing several circumstances, which gradually re-stored the wonted intellectual equilibrium of the

patient.
One of these circumstances was described to a One of these circumstances was described in a blunt statement that unless the bill was paid John would not be allowed to depart upon his great mission. This had a remarkable effect upon him. His memory instantly returned; he recollected and acknowledged the debt; and, what was more important, he took the money out of his pocket and paid it. This, we say, was one of the inconveniences of greatness.—Had John never received a diplomatic mission of such magnitude and moment, we dere say the tailor's bill would never again have come to the saurtace of things to cause him the elightest trouble. At the same time we are bound in all justice to add that the prompitude with which his finally discharged the respectable old debt, when his naturally clear intelligence was brought to the conviction that he really owed it, reflects the highest credit not only upon himself, but upon the two illustrious statssmen, Messrs. Bennett and Buchanan, to whom he owee his present valuable position.

The work of both appeared to attract great attention from the company present, and especially that of the plow. Lord Berne was on the ground, and Mr. Boydeil, Mr. Howard, Mr. Fowler, and meet of the patentoen, as well as the judges. The result of the triale will not be known for some doys, but there was an impression that the £500 prize would not be held back this year, as it was last, but would be awarded to one of the competitors on the field this morn.

> JUSTIMIABLE ROBBERY .-- At one of the gaming JUSTIMIABLE ROBBERY.—At one of the gaming establishments in Germany, Baron de K, had lost large sums at play, when one morning, on opening his secretary, he found that a sum of 40,000 florins had been extracted from it, and what made the matter worse was, that the thief was an old servant named Fritz, who, from his long services, was treated as one of the family. The man had disappeared. Some time had elapsed after the discovery, and the young Baron had become somewhat reconciled to the loss, when he one day met the servant walking along composedly in the atrect. "You rascall" exclaimed the Baron, going up to the offender; but a knowing smile from Fritz somewhat surprised him. Questions and explanations followed, and im. Questions and explanations followed, and the result was the delivery to the Baron of a re-ceipt for 40,000 florins from his own lather, who, Fritz thought, would be a safer banker for his son than the proprietor of the gambling-house.—Galignani,

to one of the competitors on the field this morn-

THE TELEGRAPH TERMINI .- Bull's Bay or Ba boul Bay, is a bay on the east slide of Newfound-land, in lat. 47° 25 N., lon. 52° 20 W. Valentia, or Kinmore, a picturesque island off the west coast of Ireland, 7 miles long and two broad, is separated from the main land by a strait, a mile and a helf in breath, and constrain, a line and a last in oreatt, and con-tains the most westerly harbor in the British-isles. The harbor is deep, capacious, and land-locked, and has lately attracted considerable at-tention, as the proposed westerly terminus of railway communication, and principal station for Attantia stammers. 19. COMMERCIAL & FINANCIAL WEEKLY BEVIEW.

OFFICE OF THE DAILY SENTINGL, } Baturday, Evening, Aug. 14, 1858. With light receipts of produce and a torrid state of the with light recepts of produce and a north state of weather, general basileness during the week closing to-day has continued extremely quiet. We cannot expect much activity in any branch of trade until the harvest is over, and the fall business begins to dawn upon us. Throughout the entire country our exchanges speak of a general hall in commercial affairs. Our merchants and other bu storing grain will be much better than ever before, and there is no doubt but that this branch of business will be more than double that of last season. The grain of Lown, which has hitherto reached the fit. Louis and Chicago markets, will come this way in large quantities, as our market how offers superior advantages to either of those mentioned. In regard to the crops in this State, we have nothing new to mention. Our country exchanges during the west contain very unfavorable accounts of the condition of the wheat crop, and there is no question but that great injury has been sustained by rust and other causes in many parts of the State; but we are not yet cou-Jeffer donium says that those who sowed the Fife whent in trade and repeat our quotations of last week. MORE TO BE ADMIRED THAN THE RICHEST DIADEM

Worn by Kings or Emperors WHAT? WHY A BEAUTIFUL HEAD OF HAIR. WHAT? WHY A BEAUTIFUL HIAD OF HAIR. Recurse it is the ordament God Illimed provided for all our race. Reader, although the race may bloom ever so brightly on the plawing cheek, the eye be ever so parabling, the test he those of yearls, if the head is brightly on the plawing cheek, the eye be ever to parabling, the test of the control of the head is brightly of the head is brightly darsh and dry, or wooseth!, if aprinhled with gray, nature will lose more than half her charms. Prof. Woods Hair Festorative, if uncil two or three times a week, will restore and permanently source to all such an ordament. Kead the following and judge. The writer of the Birst is the celebrated Praisist, Thelberg! Dr. Woods.

Prov. O. J. Woop—Denr Sir's Somet mouth or six
weeks ago I received a bottle of Frur Hair Ecstorative
and gave it to my write, who concluded to try it on her
hair, little thinking at the time that it would restore the
gray hair to its original color; but to hor, as well as my
surprise, after a few weeks' trial it has performed that
wonderful effect by tarning all the gray har back to
trown at the same time beautifying and thirkehing like
hair. I strongly recommend the above Restorative to
all persons in want of such a changelin their hair.

Naw Yoar, July 25, 1857.

Parr, O. J. Weon: With confidence do I rectamend your Hair Restorative, as being a most efficacions while I ever saw. Bino testing your Hair Restorative my Lah and whisters, which were almost witte, have gradually grown dairly and I non feel condient total a few morapphentions will restore them to their matural color. I had also releved me of init danded and updesses teching, so common among persons who perspire from the teching, so common among persons who persons the fall by a Halby. Page, Wood—About two years ago my hair commerced along of and turning gray; I was fast becoming baid, and had tried many kemedies to no effect. I commerced outry your kestorasive on January last. A faw applications fast und my hair firmly. It began to fill up, grew cut, and turned back to its former celer, black. At this time it is faily restored to its original color, neaths and appearance, and I cheeffully recommend its to tall.
